# NEWS FROM BARON YANCY AND HERSIRKONA KOLFINNA

It's HOT.

That's it. That's our message!

August has been quite the scorcher and we join you in hopes for cooler temps in September. We thank the Barony of Wiesenfeuer for co-hosting Water Wars with us. Surprisingly, we received steady rains for the first part of the day, and the weather was quite pleasant! It definitely was a wet event; just what everyone needed! Thank you to Don Cornelius for supplying games and to Lady Searlith for bringing the amazing giant bubble wands!

We are gearing up for a busy fall. Pavilion repair days are coming soon, so please join us for those as Baroness Annabelle will be teaching others how to do the repairs. We are still in need of bid proposals for new thrones for the barony. Please consider submitting your design ideas with cost estimates so we can move forward.

Mistress Kyna is the Event Steward for Protectorate this year, to be held at Will Rogers Boy Scout Reservation in Cleveland, OK, October 6-8. Please plan to join us for what will be an exciting event! Mistress Adena has a delightful feast planned, and the Canton of Wyldewode will provide Saturday breakfast and lunch tavern, and have breakfast available Sunday morning, as well!

Protectorate will mark the end of our first year as the Landed Nobility of Namron. Be on the lookout for a survey coming soon. We value your feedback and suggestions, and the survey will be anonymous for those who may feel more comfortable being forthright that way.

CONGRATULATIONS, Namronians! The Membership Challenge goal of 105 was met, so bring your super soakers, etc. to the September Populace Meeting. A dunk tank proved to be impractical (and expensive), but you still get to drench us. We will meet at The Depot, 200 S. Jones St. in Norman, September 6, at 7:00 pm. We will also provide ice cream for everyone to enjoy after the meeting. If you need a non-dairy option, please message Hersirkona Kolfinna and let her know.

In Service to the Dream,  
Barony Yancy and Hersirkona Kolfinna

## FROM THE SENESCHAL

Hello, populace! You didn't think I'd make this easy, did you? Sorry about the spacing on this, but I wanted to make sure you've room to translate it. I realize this is an electronic medium so it might not be easy given that this is likely to be a .pdf. If you'd like something more editable, let me know and I'll send you it in a different format (or the translation, if you'd prefer that). As a hint, I recommend using my signature as a starting point. Hopefully you know how to spell my full name.

### FROM THE TARGET ARCHERY MARSHAL

Greetings Namron from the Archery Marshal,  
Sadly, we were not able to hold practice this month due to extreme temperatures and the field, which has overgrown beyond a mower's capability. We are looking for an alternate site or equipment capable of getting the site back in order. We hope to be back out shooting as soon as possible,

Isabeau Wynter

### FROM THE MINISTER OF CHILDREN

Greetings to you all!

I don't know about you all but I am so ready for Fall! I love this time of year with the return of our local events and so many celebrations during the months ahead. In fact, Protectorate will be here before we know it and I am so excited to get our activities finalized and all the supplies ready to go! If you would like to help out in any way, please let me know in person, on Facebook, or via email at [moc@namron.ansteorra.org](mailto:moc@namron.ansteorra.org). Here's hoping for cooler weather soon to help us get in the spirit!

As a reminder, I'd very much like to hear from our families and learn what your children are most interested in. I've created a short survey here: <https://forms.gle/Wd1wNv7WFwcNWiR37> to collect some information to help us plan for the future. Please take a few minutes to give us your feedback. I can't wait to see you all at our future meetings and events! Take care of yourselves and hug your kiddos!

Yours in Service,  
Lady Emma O'Ruairc  
Namron Minister of Children

### FROM THE HOSPITALER

Greetings all! As August leaves us, hopefully cooler weather follows. This means outdoors events! Street fairs, state and local county fairs, art walks, music festivals and more! If you see an opportunity for us to do a demo, please let me know.

In August my family and many others traveled all the way to Pennsylvania, to Pennsic. It was amazing. While traveling I was able to pass out Namron SCA cards. Because they have the SCA website on them they can be passed out all over the US. I have plenty of cards right now, and plan to get more. If you would like some cards to pass out, please let me know.

I know that we have newcomers in all aspects of our group. Please, come introduce yourself to me if you have any questions or need any help. I am here to help you any way I can.

### FROM THE TREASURER

Greeting Good Populace,  
Your local Exchequer -Money-paperwork wrangler here.  
Boy did the summer go by fast. I hope everyone had some fun with family while you were vacationing and kids out of school.

I have FINALLY got some good news on the signers for the bank account. We received the corporate paperwork to get them changed. I am working currently to get all that completed on our side and signatures obtained. Hopefully that will all be finished by the populace meeting but if not, I'm shooting for the September business meeting to announce all completed.  
I believe all the requests of the paperwork updates to get ready for the book review at the last red tape have been completed as well and as soon as the signers are completed we can get that scheduled. YaY!!

We received a wonderful donation for funds to fix the pavilion canvas at the August Populace meeting. THANK YOU to all who donated items and helped set up, tear down and shopped at the baronial garage sale hosted by our baron and baroness.

Protectorate is just around the corner and we will be needing gate workers. I am in charge of that and will be getting a schedule out as soon as I can get all of the info needed to make a schedule.  
I want to try to schedule a class on how to fill out the gate sheet and forms for those that need a refresher or ones who have never worked a gate shift. If you want to help with gate or just learn about the paperwork or process needed to do so, look for those pages /classes to be created soon on the Barony Facebook page and I'll send out info in the email lists too.

And just for you Baron Yancy ... We have Money!!

As always if you have any questions or concerns please feel free to ask anytime and the books are always open.

In Service to the Dream,  
Lady Sibeal inghean Ni Suilleabhain

### FROM THE THROWN WEAPONS MARSHALL

Hello and Salutations from the office of The Throwing Weapons Marshall. First order of business, currently we have had no practices still due to weather. I'm very hopeful that we will be able to get back to normal once the weather cooperates. I know feels like a Broken record.

Last Month we did a small dive into javelins. This month we will discuss spear throwers.

Spear Thrower from Canada, Americas. Collected by Walton Haydon. Given to Museum in 1888.

This unusual-looking object is a spear thrower (also generally known as an 'atlatl'). Although not a

weapon it itself, the spear thrower is a device used to increase the speed, distance or force of a spear when thrown.

This particular example is made of lightweight wood and has an elongated shape, together with ergonomic features to accommodate the human hand. It was collected at Little Whale River on the eastern side of Hudson's Bay, Canada and may be Innu in origin. Innu communities continue to live in the area today. The collector, Dr. Walton Haydon, worked as a surgeon and clerk for the Hudson's Bay Company (HBC) from 1878 to 1883 where he was stationed at Moose Factory in James Bay.

## OFFICER NEWS

The spear thrower has a documented history of over 25,000 years and has been found on every continent except Antarctica. It has been suggested that it traveled to North America about 12,000 years ago with migratory hunters from Asia. Certainly the spear thrower developed in, or diffused into, those societies where serious hunting and fighting were done with spears.

In historic literature, the spear thrower has attained a reputation for being clumsy and inefficient. However, when designed and used in the right way, it ensures the spear hits its target with more energy and with similar accuracy to the bow. It has long been asserted that the main advantage gained from using a spear thrower was the ability to launch the spear a greater distance, achieved by the leverage effect due to the effective lengthening of the arm. However, experimental research has revealed that the two main advantages are in fact greater power (up to 60% extra force) and greater accuracy, and archaeologists have shown that neither is the exclusive outcome of improved leverage (although this is a factor). Rather, increased power really results from prolonged contact with the hand during acceleration. Greater accuracy in the throw is possible for the same reason: the thrower is in contact with his missile for longer and can therefore correct his throw during it. Moreover, grip and control are generally much improved.

This is a right-handed spear thrower, as shown by the shape of the bevel on the thumb-hole, the larger of the two holes. The other hole is for the forefinger and the grip is for the remaining three fingers. It would be held behind the right shoulder with the wrist bent slightly back so that the device was more or less parallel to the ground. The spear butt would then fit into the notch at the opposite end. The thumb-hole not only gives the thrower great leverage, but allows him to support the spear-shaft with his thumb-tip through the body of the tool itself. The spear would then be ready to be thrown. Devices like this could also be used to launch arrows in a similar fashion. It is worth noting that this is a 'female' spear-thrower; that is, the spear butt fits into the socket, rather than vice versa. Consequently, no modification needs to be made to a spear used with this spear-thrower.

## OFFICER NEWS

This highly functionalised form of spear thrower illustrates the importance of hunting success among the Innu people in their extreme, marginal environment in northern Quebec. The Innu are an Algonquian-speaking people, formerly known as the Naskapi-Montagnais. They were traditionally nomadic, tent-dwelling hunter-gatherers, who exploited fish stocks in the river, and the large migratory herds of caribou as well as other animals such as beaver. The harshness of the environment meant that men could die from exposure on hunting trips, and their families starve as a result. The sparseness of game demanded that the Innu maintain a low population density across the region, and so social groups were small, numbering one or two tents of immediate family. In general, the Innu had little interest in status rivalry, although men admired and respected each other for their skill in the hunt. In such circumstances, the advantages gained by the hunter over his prey could make the difference between life and death for several people.

# BARONIAL WISH LIST

Simple drawstring bags for storing rolled banners, black or gold (2) 10"x54"; (3) 10"x24"; (1) 8"x45" when laid flat

Painted PVC tubes for banner transport

Namron belt sashes

Feast gear for newcomers (dinner plates, bowls, utensils, mugs/goblets; break-resistant materials are welcomed for our younger members)

Table runners to hang from back to front at Their Excellencies' place settings; gold with baronial arms on the front section preferred (Don't sew, but would like to help with this? Donations of durable and washable fabric would be a great boon!)

Hard-shell knee and elbow pads for Youth Armored Combat

Four embroidered napkins for baronial feast gear

Largesse (matching sets of 12 are especially useful, but all largesse is wonderful)

## Embroidered Memorial Banner Project

We have a list of names. Next, we need someone/s to research devices. This is a daunting task, so multiple participants would be ideal. Once that is completed (as much as it's possible), we will be in need of artisans to embroider the devices.
